### Granite

#### ***An excellent choice for kitchen countertops, floors, and other heavily used surfaces***

Granite, quarried from the mountains of Italy, the U.S., India, Brazil and dozens of other countries around the world, is one of the most popular natural stones on the market.

Available in a striking array of colors, granite's durability and longevity make it ideal for kitchen countertops and other heavily used surfaces, including table tops and floors.

While some synthetic surfaces scratch easily and melt under hot cookware, granite resists heat. Granite is also one of the most bacteria-resistant kitchen surfaces, and it is not affected by citric acid, coffee, tea, alcohol, or wine. It is also nearly impossible to scratch, and with proper cleaning, will not stain under normal use.

A leading consumer magazine recently compared granite with engineered stone, ceramic tile, laminate, butcher block, and other manufactured surfaces. Granite received the highest overall performance rating as a kitchen countertop material.

Because of its exceptional strength, granite is well suited for exterior applications such as cladding, paving, and

### Marble

#### ***Ideal for foyers, bathrooms, floors, and hearths***

Marble is found in the mountainous regions of Canada, Italy, Germany, Spain, the U.S., and other countries worldwide. Because of its beauty and elegance, marble is a popular choice for countertops, floors, foyers, fireplace facings and hearths, walls, and windowsills.

Marble adds a sophisticated element to your home, and its wonderful appearance, superior engineering characteristics, and ease of maintenance make it a natural choice for floors, wall coverings, table tops, and bathroom walls, floor, vanity tops, tub decks, and showers.

### Travertine and Limestone

***Beautiful enhancements for your home, inside and out***

Travertine is a type of limestone and one of the most popular natural stones for interior and exterior wall cladding, interior and exterior paving, statuary, and curbing.

Limestone is widely used as a building stone because it is readily available and easy to handle. Popular applications include countertops, flooring, interior and exterior wall cladding, and exterior paving.
